

Clearcreek Road Department

Monthly Report

October 2023

During November, crews worked with the Parks Department, moving dirt in and grading around the pickleball courts, using 60 loads to backfill around the courts, and finishing off the week by ditching on Harlen Rd and changing a driveway pipe on Bunnell Hill Road.

Crews also installed a pipe extension on Red Lion Five Points Road between Hickory Hill and North Hills Boulevard. The original pipe consists of 36" clay tile under the roadway, which is no longer available. Crews adapted a concrete pipe to fit the original pipe. This option proved the most cost-effective while providing lasting stability.

Additionally, crews installed drain pipes to the ditch in front of the new Police Station and Maintenance Storage Building, making it more accessible to mow and maintain. The ditch did not meet standards for full piping; so, crews installed a low flow, as suggested to township residents experiencing water issues in front of their houses.

Finally, crews began servicing trucks and preparing snow plow equipment for Winter.
