Clearcreek Township Electric Ratepayer,

Clearcreek Township Trustees are pleased to announce that residential customers in the Duke territory of the township will benefit from some rate relief beginning with their May electric bill with the new electric aggregation agreement reached this week.

With the new agreement reached between Dynegy Energy Services East (Dynegy) and the Township, residential customers in the Duke service territory of the township will see a new, fixed rate of \$0.0686/kWh for electric generation service from May 1, 2023, through May 2025, if you wish to participate. Many in the Duke service territory had been facing the prospect of a \$0.095/kWh, or higher rate hike this summer.

The new agreement with Dynegy will last 24 months and, as has been the case with prior aggregation offerings in Clearcreek Township, is an opt-out program. Residential customers in the Duke territory will be automatically enrolled in the new rate program in May unless they take action to opt-out of the offering, or they are already under separate, individual contract with another electric generation service.

To read more about the offering, residents may visit <https://energyalliances.com/clearcreek-township-warren-co>. Alternately, any questions about the new agreement or aggregation offering, and to opt out, you may call Dynegy Energy Services at 888-682-2170, or Energy Alliances at 800-735-0359.

To be included in the program, you must not already be under contract with an electric generation company. Outside of that, you'll be automatically enrolled in the program.

Questions about this letter and its contents may be directed to Clearcreek Township Administrator, Matthew Clark at (937) 748-1267.

Sincerely,

A handwritten signature in blue ink that reads 'Matthew Clark'.

Matthew Clark
Clearcreek Township Administrator
