

CLEARCREEK FIRE DISTRICT

Monthly Report May 2024

Above & Beyond

Mrs. Shirley Hidy thanks Lieutenant Stafford, and Firefighters Bunker and Kidd for their assistance with her smoke detectors. Well done, gentlemen!

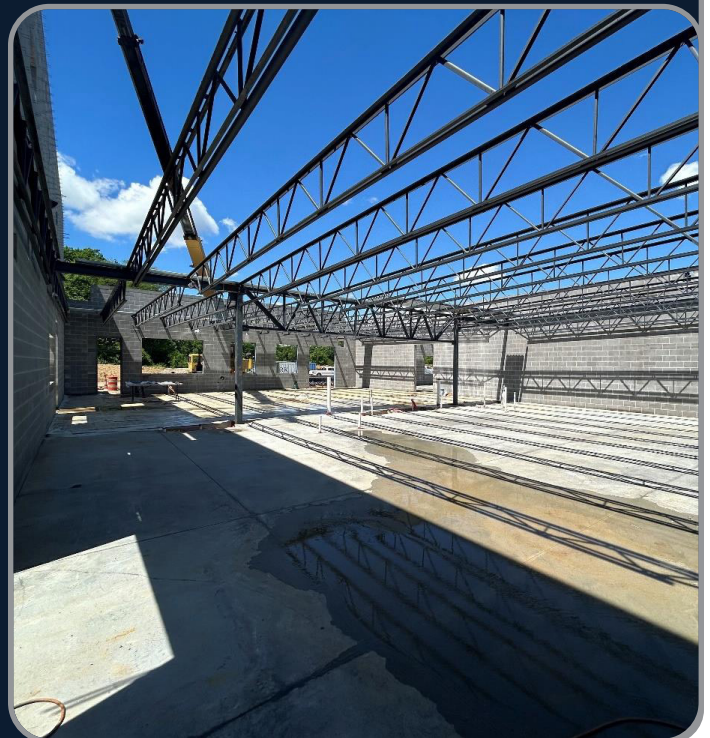

Kudos to Firefighter Kalb for researching and incorporating fire blankets on our frontline apparatus. These blankets are designed for use on electric vehicle (EV) fires, which burn hotter and longer than traditional vehicles due to the lithium batteries. Rather than the massive amount of water needed to extinguish an EV fire, these blankets will smother the fire immediately. Thank you, Andy, for all your work on this!

Keeping the Promise

Station 24 Updates

Construction crews applied flashing and fluid air barriers throughout the building in May. They installed joists, bridging, columns, and girders for the Apparatus Bay, Administration Area, and Mezzanine. Electricians began installation with conduits to pole lights and cameras. Additionally, Duke Energy installed the transformer and connected power to the job site. Workers began constructing wood blocking on top of the masonry walls for the roof and completed floor drains in the Training Tower. Ending the month, crews prepared and poured concrete pads for the generator and dumpster. They also began roofing underlayment and interior wall framing for the Administration Area.
